JB. 6/7/44

I presume that these allowances are recommended to technical men as a sort of inducement to them to continue here. I am not sure whether the grant of the absorbable technical allowances proposed would really be the proper remedy. I am afraid that the allowances now suggested may create considerable discontent among the large body of the remaining staff.

So far as I can see, employees do appreciate the difference in security between Government Service and jobs outside and also the temporary nature of the demand for technical personnel at present and will hazard a change only when the outside offer is very tempting. In such cases, the small technical allowances are not at all likely to stand in their way.

Strictly Confidential.

D.O.No.70/C.B.

Dear Mr. Noronha,

With reference to your D.O. letter No.C.166 dated 7th July 1943 and in continuation of my letter No.162.B dated 19-7-43 regarding proposals for granting special allowances for highly qualified technical staff in the industrial concerns, I wish to make the following proposals in respect of the several concerns. In this connection I may mention that these proposals have been made after due consideration of the various representations made to me personally by the officers and the General Managers concerned. I may also say that the allowances proposed will be necessary if we are to retain for any continuous length of time, the services of the technical staff as this staff will always be thinking of bettering their prospects elsewhere if the allowances are fixed on a low basis.

Government Porcelain Factory:- The case of Mr. N.V. Raghunath, General Manager, of the factory requires consideration. His qualifications are if anything, higher than those of Mr. Rama Rao of the Government Electric Factory in as much as Mr. Raghunath is a double graduate and has also further qualified himself in the Indian Institute of Science and he was deputed for special study of manufacture in Europe and America. He is now in grade Rs.300-50/2-400 which was uniformly sanctioned for all the General Managers. Although some short comings and defects have been noticed in Mr. Raghunath's work, it is necessary that if we have to keep the services of Mr. Raghunath as the experienced technical officer in a very responsible charge, that his remuneration is enhanced suitably. I consider that he should be given the same remuneration as Mr. V. Rama Rao, particularly as the operations of the Government Porcelain Factory are as difficult, if not more, so, as those at the Government Electric Factory. I, therefore, recommend that Mr. Raghunath may be granted a special allowance of Rs.200/-

p.t.o.

Rs.200/- and a conveyance allowance of Rs.50/- per month having regard to the long distance of the Government Porcelain Factory.

3 In this factory there are three other subordinate officers who hold key positions viz., Mr. H.Y. Saranabasappa, Mr. M. Madhava Rao and Mr. S. Chintopanth. Mr. Saranabasappa is in charge of the Electro-porcelain Section and is the first assistant of the General Manager. He has gained knowledge and experience of electro-porcelain manufacture from the beginning and his services have to be retained for the factory. Mr. Madhava Rao has been connected with the erection and operation of the Tunnel Kiln from the beginning and it is not desirable to lose the benefit of his experience and knowledge of the machinery. Mr. Chintopanth is a qualified ceramist and there are no other qualified ceramists at the factory. He was getting a higher salary of Rs.125/- when he was working in the Mysore Stoneware Pipes & Potteries, Ltd., and it is not desirable to lose the services of experienced ceramists. I therefore recommend that these officers holding key positions in the factory be granted an allowance of Rs.100/- p.m.

4 Industrial & Testing Laboratory:- I had in my letter No.7/C.B. dated 28th May 1943 requested the sanction of Government to fix the salary of the technical officers of the Laboratory in the original grade proposed by me or in the alternative to grant additional allowances to them. These proposals have had to be reconsidered in the light of the instructions contained in your letter of the 7th July 1943 mentioned above. The names of the technical staff who hold key positions and who have picked up experience and knowledge of the manufacture of important products which are going on regularly at the Laboratory are noted below:-

1. Mr. C. Varadhan, M.Sc., A.I.C., A.I.I.Sc.,
2. Mr. J.L. Janniah, B.Sc., A.I.I.Sc.,
3. S.G. Sastry, B.A., B.Sc.,
4. Mr. B.A. Sundariengar, M.Sc.,
5. K. Shamanna, Esq., B.Sc.,
6. Mr. A.R. Narasimhan, B.Sc.,
7. Mr. D.V. Sudershan, B.Sc.

---

5 Mr. Varadhan and Mr. Janniah are both highly qualified officers and possess additional qualifications of specialised work at the Indian Institute of Science. The other officers are also qualified officers in lower grades of salary engaged on important manufactures. All these officers have also put in some years of service and their service will be greatly in demand elsewhere and they are likely to secure offers of higher salary from outside concerns. It is not desirable to lose the services of these officers in the interest of the production of the Laboratory. Both Mr. Varadhan and Mr. Janniah have put in similar periods of service as those of Mr. Raghunath and Mr. Rama Rao and I feel that their qualifications are also of a similar order. I recommend that these officers be given a special allowance of Rs.200/- p.m. in addition to their salary. I recommend that the officers viz., Messrs. S.G. Sastry, B.A. Sundariengar, K. Shamanna, A.R. Narasimhan and D.V. Sudershan be given a special allowance of Rs.100/- p.m.

6 Government Soap Factory:- Mr. M.S. Krishna Rao, General Manager, is an officer who has been connected with the factory from the beginning and the operations of the factory have been increasing and proposals for the expansion of the factory are also under way. It is absolutely necessary to retain the services of such an experienced officer for the factory. I recommend that Mr. M.S. Krishna Rao be given a special allowance of Rs.200/- per month over and above the salary which has been proposed for him. Mr. L. Nagesha Rao, Chemist is next in charge of the factory and has been connected with the work of the Laboratory and the factory from a long number of years and it is not desirable to lose his services. I recommend that he may be given a special allowance of Rs.100/- per month.

7 Government Dichromate Factory:- Mr. H.V. Sreenivasarangachar, Works Manager, is an officer who has technical qualifications and has also gained intimate experience and knowledge of the manufacture of the several products of the factory. In additon to the pay [illegible] it is necessary that he should be given a special allowance of Rs.50/- per month.

p.t.o.

8. Government Silk Weaving Factory:- Mr. M.A. Qadir, General Manager of the factory has been frequently representing that he may be given a higher remuneration. He is an officer who has technical qualifications and although some shortcomings and defects have been noticed in his work, it is necessary to deal with his case also similarly with the other cases of technical officers of the other concerns. I recommend that he be given a special allowance of Rs.200/- per month.

9 In this factory the other key men are, Mr. B.N. Krishna Murthy and Mr. S.H. Subba Rao. These two officers have been connected with the work of the factory almost from the beginning and were also trained under the Swiss Expert. Their services are greatly in demand by other outside concerns and in fact these officers have had offers which have not hitherto been allowed to be considered. I recommend that these officers be given a special allowance of Rs.100 per month.

10 There are one or two cases of subordinate technical officers at the Government Electric Factory which have to be considered. I am awaiting the proposals of the General Manager, Government Electric Factory in this regard and shall submit them separately to Government.

Yours sincerely,

Charles E. Noronha, Esq., M.A.,
Secretary to Government,
Development Department,
Bangalore.

Encls: Two.

Dear Lr. Noronha,

Allowances to keymen in industrial concerns.

In continuation of this office letter No.70/C.B. dated 26th August 1943 on the above subject, I write to forward herewith a list of keymen since received from the General Manager, Government Electric Factory. Regarding the officials noted in margin I have already submitted proposals to Government for enhancing their salaries and I do not consider they need be granted any special allowances. Messrs. M.R. Raghavendra Rao and M.S. Kesavan have their lien in the Public Works Department.

1. K.R. Ramaswami Iyengar,
2. M.R. Raghavendra Rao,
3. M.S. Kesavan,
4. V. Srinivasa Rao.

Regarding the other employees proposed by the General Manager, I feel that they are all junior officers whose cases may be dealt with in the usual course on their merits.

Yours sincerely,

Ganapati

CONFIDENTIAL.

UNITED INDIA BUILDINGS,
Sri Narasimharaja Road,
Bangalore City, 14th/15th June 1944.

HC

Dear Mr. Noronha,

This is acd after a fortnight from the date of letter

Subject:- Allowances to Technical Staff of the industrial concerns.

With reference to proposals submitted in my letter No. 70/C.B. dated 26th August 1943 and subsequent correspondence thereon, I write to state that during the discussions held in the Chambers of the Minister for Industries & Supplies on 18th April 1944 at which you were also present, it was agreed that having consideration to the individual circumstances of each case, and the proposals made separately regarding the revision of the salaries of the Industrial & Testing Laboratory officers, absorbable techical allowances be granted to the key men only in the concerns and it was not considered necessary to give, in the present circumstances, additional technical allowances of high amounts.

A statement showing the existing & proposed cost involved in the proposals has been placed for the kind perusal of the Hon'ble Minister.

This is acd on 8.7.44

Accordingly I note below the names of the technical staff and the absorbable allowances to be given to them, as settled at the meeting.

Government Silk Weaving Factory.		Absorbable technical allowance.
1. Mr. B.N. Krishna Murthy,	...	Rs.25 p.m.
2. Mr. S.H. Subba Rao,	...	Rs.25 p.m.
Government Dichromate Factory.		
Mr. H.V. Sreenivasarangachar,		Rs.50 p.m. ✓
Government Porcelain Factory.		
1. Mr. N.V. Raghunath,	...	Rs. 50 p.m. ✗
2. Mr. H.Y. Saranabasappa,	...	Rs.25 p.m. ✓
3. Mr. Madhava Rao,	...	Rs.25 p.m. ✓
4. Mr. S. Chettopanth,	...	Rs.25 p.m. ✓

Since the above discussions, I have reported to Government that the scheme for the manufacture of air de-polariser cells with the technical assistance of Mr. de Bruyn has not made much progress at the Porcelain Factory. In proposing the grant of a technical allowance to Mr. Raghunath, the extra work involved in the development of this new scheme had been kept in view. Sardar Dogar Singh's report containing suggestions for the improvement of the working of the factory has since been received and I have submitted the same to Government with my proposals regarding the allocation of work to Mr. Raghunath. In these

p.t.o.

these altered circumstances, it is a point for the consideration of Government if the technical allowance proposed to Mr. Raghunath may not be granted when the work relating to the air de-polariser cells has substantially increased and satisfactory results have been secured.

As the officers are anxiously looking forward to the orders of Government in the matter and the proposals were made a long time ago, I request you to kindly obtain the sanction of Government to the grant of these absorbable technical allowance with effect from 1st March 1944.

Yours sincerely,

E V Ganapati Iyer

Charles E. Noronha, Esq., M.A.,
Secretary to Government,
Development Department,
BANGALORE.
